Other Potentially Affected Neighbours	Notify Potentially affected neighbours in conjunction with Fire Brigade notification system

Impacts on the broader community are variable and depend on location, or other factors such as wind direction and velocity. In the event of a pollution incident occurring (such as a Fire) which has the potential to impact residential areas, communication methods will be used on a case by case basis and in all situations Cleanaway will liaise with Newcastle City Council Regional Council and Fire and Rescue to provide early warnings to directly affected residents by the mechanisms described below. Early warnings are to include details of what the imminent incident is and how those affected can prepare and respond to the incident. The notification shall provide specific information to the neighbouring properties and local community, so it can minimise the risk of harm.

In the event of a pollution incident Cleanaway, in consultation with Newcastle City Council, will attempt to provide early warning to directly the community by the following mechanisms as appropriate:

- Telephone calls or door knocking (where appropriate);
- Mail box drops;
- Warning signs;
- Local media source (radio/newspapers);
- Newcastle City Council webpage updates and media releases; and
- Newcastle City Council website address is <https://www.newcastle.nsw.gov.au/Home>
