

Licence Amendment Applications Melbourne Regional Landfill

Dear Resident

Cleanaway wishes to inform you about changes we are proposing to our licence for the Melbourne Regional Landfill on Christies Road in Ravenhall.

We are seeking licence amendment approvals from the EPA to permit the:

- receipt and disposal of asbestos waste within engineered landfill cells, and
- screening and crushing of low-level PFAS impacted rock to reuse as aggregate for construction of haul roads within engineered landfill cells

More details are provided on our website using this link address:
