## EQUITY RAISING TO FUND BLUEPRINT 2030 GROWTH INITIATIVES AND ACQUISITION OF LICENSED COMPOSTING BUSINESS GLOBAL RENEWABLES

Cleanaway Waste Management Limited (“**Cleanaway**”) ASX:CWY is today launching a \$350 million fully underwritten institutional placement (“**Placement**”) and a \$50 million non-underwritten share purchase plan (“**SPP**”) (together, the “**Equity Raising**”).

The Equity Raising proceeds will provide significant balance sheet capacity to fund Cleanaway’s BluePrint 2030 strategy. This includes medium-term opportunities to deliver the blueprints under the Strategic Infrastructure Growth and Sustainable Customer Solutions pillars<sup>1</sup>, starting with the acquisition of a 100% interest in Global Renewables Holdings Pty Ltd (“**GRL**”) for \$168.5 million.

### Key highlights

- Cleanaway has today entered into a binding agreement to acquire a 100% interest in GRL for \$168.5 million – represents an attractive multiple of 7.9x EV / FY22A pro forma EBITDA
- GRL is a licensed composting facility that processes ~20% of Sydney’s ‘Red bin’ household waste at its strategically located Eastern Creek site and delivers ~30% landfill diversion and better carbon outcomes compared to landfill
- Cleanaway is the logical owner of GRL as we are the exclusive provider of waste to the facility and have deep existing relationships with surrounding Councils
- The GRL facility currently composts organics from ‘Red bin’ household waste and will gradually transition to source separated food organics and garden organics (“**FOGO**”) feedstock to meet Council customer needs
- Cleanaway is committed to enhancing the facility over time, including an expected \$40-45 million upgrade to enclose the compost maturation area
- The acquisition of GRL would be 5.2% EPS accretive on a pro forma FY22A basis based on the Placement proceeds used to fund the purchase price and transaction costs associated with the acquisition<sup>2</sup>

<sup>1</sup> Refer to ‘Cleanaway Blueprint 2030 Strategic Infrastructure Growth Pillar’ ASX release on 7 June 2022 for further detail.

<sup>2</sup> Assumes Placement of \$172.3m based on acquisition price of \$166.6m (reflecting \$168.5m less adjustments for debt-like items and normalisation of net working capital of ~\$1.9m), ~\$2.8m of transaction costs related to the acquisition of GRL and proportional illustrative Placement costs of \$2.9m.

- Including the full impact of the Placement<sup>3</sup>, the acquisition is 3.7% EPS accretive on a pro forma FY22A basis, with incremental earnings upside expected to be realised as additional capital is deployed into growth projects targeting a double-digit IRR
- The acquisition of GRL, including the future facility upgrade, is also expected to deliver a double-digit IRR
- Cleanaway's pro forma FY22 net debt to underlying EBITDA ratio is expected to be 1.86x post acquisition and Placement<sup>3</sup>, providing appropriate capacity to fund additional growth opportunities

## Acquisition overview

Cleanaway is pleased to announce that it has signed an unconditional agreement to acquire a 100% interest in GRL for \$168.5 million. The acquisition of GRL accelerates Cleanaway's BluePrint 2030 organics strategy by providing high circularity, low-carbon solutions for 'Red bin' mixed waste today and future FOGO bin waste. The acquisition is expected to complete this quarter.

Commenting on the acquisition and the acceleration of future growth opportunities under the BluePrint 2030 strategy, Cleanaway Chief Executive Officer and Managing Director, Mark Schubert said:

*"The acquisition of GRL represents an important step in the acceleration of our BluePrint 2030 strategy. The site and facility provide a strategic location and infrastructure to enhance our broader network and customer offering today and into the future as we position ourselves for the growing FOGO market opportunity."*

*"As outlined in our Strategic Infrastructure Growth Pillar update, Cleanaway aims to be recognised by our customers as the most innovative and sustainable waste management company and today's acquisition is clearly aligned with this objective."*

*"We are also well advanced on a number of strategic infrastructure development initiatives and tender opportunities aligned to BluePrint 2030. The Equity Raising will provide significant balance sheet capacity to invest in these growth initiatives."*

<sup>3</sup> Excludes the impact of any proceeds of the SPP. Cleanaway retains the right to accept oversubscriptions or to scale back applications (in whole or in part) at its absolute discretion that may result in the SPP raising more or less than \$50m.

## About GRL

GRL is a New South Wales Environment Protection Agency licensed large-scale organics composting facility that processes 220kT p.a. or ~20% of Sydney's mixed household waste from its strategically located site in Western Sydney.

Cleanaway is the exclusive contracted provider of waste to the GRL facility until 2032, with waste supply underpinned by contracts with surrounding Councils, with whom we have existing long-term relationships.

The facility provides sustainable customer solutions today by delivering 30% landfill diversion and better carbon outcomes than Red bin waste sent directly to landfill. As the market transitions to FOGO solutions, the GRL facility is expected to deliver even greater diversion rates and carbon outcomes from FOGO feedstock.

## Strategically compelling acquisition aligned with BluePrint 2030

- Accelerates Cleanaway's BluePrint 2030 organics strategy by providing high circularity, low-carbon solutions for 'Red bin' household waste today and FOGO bin organic waste as Council customers transition to this solution
- Opportunity to immediately internalise existing volumes and acquire an attractive pro forma FY22 EBITDA of ~\$21.4 million
- Acquisition of GRL eliminates an unfavourable contract provision for Cleanaway in relation to GRL under which payments to GRL exceeded receipts from Councils (the contract was acquired as part of the acquisition of the Sydney Resource Network from Suez for which a purchase price reduction was obtained)
- GRL provides an established and licensed composting platform and a highly capable and experienced management team
- Site location and licences to process mixed waste and FOGO are of significant importance to the Sydney region and would be difficult to replicate on a greenfield basis
- Allows Cleanaway to leverage its geographically diverse Sydney network to capture organics share, with GRL and a further planned Lucas Heights facility providing Sydney-wide processing capability

## Equity Raising

### Fully underwritten institutional placement

Cleanaway is undertaking a fully underwritten placement of new fully paid ordinary shares in Cleanaway (“**New Shares**”) to eligible institutional investors to raise \$350 million. The offer price per New Share is \$2.50 (“**Placement Price**”), which represents a:

- 7.7% discount to Cleanaway’s last close price of \$2.71 per share on 18 August 2022; and
- 8.1% discount to Cleanaway’s 5-day volume-weighted average price (“**VWAP**”) per share of \$2.72 on 18 August 2022.

The Placement will result in approximately 140.0 million New Shares being issued, representing approximately 6.8% of Cleanaway’s existing issued capital.

New Shares issued under the Placement will rank equally with existing Cleanaway shares from the date of issue and will be entitled to the final dividend for the full year ended 30 June 2022.

### Share purchase plan

Eligible Cleanaway shareholders, being shareholders who had a registered address in Australia or New Zealand on Cleanaway’s register at 7.00pm (AEST) on 18 August 2022, will be invited to subscribe for up to \$30,000 of New Shares under the SPP at the lower of the Placement Price and the 5-day VWAP of Cleanaway’s shares up to, and including, the closing date of the SPP, and free of any brokerage or transaction costs.

It is intended that the SPP raise up to \$50 million and it is not underwritten. Cleanaway retains the right to accept oversubscriptions or to scale back applications at its absolute discretion. New Shares issued under the SPP will rank equally with existing Cleanaway shares from the date of issue and will be entitled to the final dividend for the full year ended 30 June 2022.

Further details of the SPP will be set out in the SPP Offer Booklet, which will be released to ASX and made available to eligible shareholders in Australia and New Zealand on or around 22 August 2022.
