**ASX RELEASE**

**PLANNING PERMIT RECEIVED FOR EXTENSION OF OPERATIONS AT MELBOURNE REGIONAL  
LANDFILL UP UNTIL 2046**

Cleanaway Waste Management Ltd (ASX:CWY) advises that the Victorian Minister for Planning has today granted a planning permit for the extension of operations at the Melbourne Regional Landfill (MRL) located in Ravenhall, Victoria.

The planning permit will expire in 2046 or earlier if the permitted area's landfilling capacity is exhausted.

Vik Bansal, CEO and Managing Director of Cleanaway said: *"This approval is the critical step in extending the existing footprint and operations at the site and provides us with certainty regarding the future use of the site. Based on our internal estimates, this provides planning approval for landfilling on the site until approximately 2038.*

*"MRL is a waste management hub of State importance, and is central to Cleanaway's overall waste management network in Victoria. Cleanaway is committed to extending the waste management infrastructure at MRL in line with our Footprint 2025 strategy."*

As announced on 24 March 2017, the EPA has also granted Cleanaway a Works Approval to conduct landfilling activities on the site for a corresponding area. That decision is the subject of review applications to be heard in October 2017.
